
Ravikiran K C

Data Scientist

 Bharath Nagar, Bangalore  +91 7348851546  RavikiranKC@zohomail.in  kc-ravikiran (Ravikiran K C)

OBJECTIVE

Experienced professional with **12 years of overall experience** across **Data Science and Analytics, Front-End development, and Marketing**. Currently pursuing an **M.Sc. in Data Science and Analytics** to enhance my knowledge of data analytics, machine learning, and artificial intelligence. Passionate about transforming data into actionable insights and developing innovative solutions that drive business value.

PROFESSIONAL SKILLS

- 5 years of experience in Data Science and Analytics, with expertise in Python, SQL, Data Wrangling, Data Cleaning, EDA, Machine Learning, Power BI, Pandas, NumPy, and Scikit-learn, along with hands-on exploration of Generative AI, RAG applications, AWS SageMaker, Amazon S3, and Boto3.
- 3 years of experience in developing web applications using HTML, CSS3, JavaScript, and Bootstrap.
- 4 years of experience in marketing, customer engagement, market analysis, business development, and sales dashboard.

TECHNICAL SKILLS

- **Programming and Scripting Languages:** Python, SQL, JavaScript
- **Data Analysis and Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel
- **Machine Learning:** Scikit-learn, Supervised Learning, Classification, Regression, Clustering, Feature Engineering, Model Evaluation
- **Data and AI Application Development:** Streamlit, FastAPI, REST APIs, Postman
- **Cloud and MLOps:** AWS, Amazon SageMaker, Amazon S3, Boto3, Docker
- **Databases:** MySQL and PostgreSQL
- **Data Processing and ETL:** Data Cleaning, EDA, Data Preprocessing, Feature Extraction, Web Scraping, PDF/Data Extraction
- **Development and Collaboration Tools:** Git, GitHub, Jupyter Notebook, VS Code, Jira, Confluence

WORK EXPERIENCE

Mphasis Ltd, Bengaluru — Data Scientist

(July 2024 – Present)

- Analyse HP product and print-related data to identify business trends, usage patterns, and actionable insights.
- Perform data cleaning, preprocessing, exploratory data analysis (EDA), and feature engineering using Python and SQL.
- Develop Power BI dashboards and reports to track KPIs, product performance, and operational metrics.
- Build, train, evaluate, and optimize machine learning models using Python and Scikit-learn.
- Utilize AWS SageMaker, Amazon S3, and Boto3 for model training, deployment, and management.
- Design and develop Retrieval-Augmented Generation (RAG) applications to enable intelligent search and knowledge retrieval from enterprise documents and knowledge bases.

- Implement LLM-based solutions using LangChain, Hugging Face, vector databases, embeddings, and prompt engineering techniques.
- Optimize retrieval accuracy, response quality, and application performance through chunking strategies, embedding selection, and prompt refinement.
- Collaborate with product, engineering, and data science teams to deliver AI-powered and data-driven solutions.
- Create and maintain Machine Learning (ML) Model Card templates to standardize model documentation, improve transparency, and support AI governance initiatives.
- Explore advanced Generative AI technologies and evaluate their applicability to business use cases.

HCL Technologies, Bengaluru — Data Analyst

(July 2021 – June 2024)

- Analysed business data across Banking and Supply Chain projects, supporting client requirements and data-driven decision-making.
- Participated in more than 15 releases across multiple projects and client engagements, supporting data analysis, validation, and delivery activities.
- Collected, cleaned, transformed, and validated datasets, performing EDA and data quality checks to identify trends, patterns, and anomalies.
- Developed Power BI dashboards and reports to monitor KPIs, operational metrics, financial metrics, and business performance.
- Performed data preprocessing, feature engineering, and feature selection to prepare datasets for Machine Learning applications.
- Built and evaluated Machine Learning models using Python, Pandas, NumPy, and Scikit-learn, applying appropriate evaluation metrics.
- Handled missing data, imbalanced datasets, overfitting, underfitting, and data leakage during model development and validation.
- Automated recurring data analysis and reporting tasks using Python and SQL, reducing manual effort and improving efficiency.
- Prepared analytical reports and communicated data-driven insights to clients, business stakeholders, and project teams.
- Collaborated with business analysts, data engineers, software engineers, and stakeholders to understand requirements and deliver data-driven solutions.

Hetero Healthcare, Bengaluru — Business Development Manager

(Feb 2020 – June 2021)

- Built and maintained strong customer relationships and supported business development activities while promoting various Azista e-commerce products and Hetero health care products.
- Planned and executed email campaigns to promote products and increase customer engagement.
- Collaborated with the Marketing team to collect and consolidate weekly sales data for analysis and reporting.
- Created weekly sales dashboards using Power BI and maintained sales and customer data in Excel.
- Prepared weekly sales reports and shared business insights and sales performance with the management team.

Natco Pharma, Bengaluru — Marketing Executive

(July 2019 – Jan 2020)

Zydus Healthcare, Bengaluru — Marketing Executive

(Mar 2018 – Jun 2019)

Emcure, Bengaluru — Territory Manager

(Jan 2017 – Feb 2018)

- Collaborated with internal, sales, and marketing teams to support product functionality, customer engagement, and business requirements.
- Tracked sales performance, handled product-related queries from global clients, and provided timely resolutions.
- Worked with the marketing team to manage email campaigns and customer contact lists through effective segmentation.

MPS Ltd, Bengaluru — Frontend Developer

(Feb 2013 – Oct 2016)

- Developed and maintained e-commerce and publishing web applications for platforms such as Elsevier using HTML5, CSS3, JavaScript, jQuery, and AJAX.
- Developed responsive and user-friendly web pages for product listings, navigation, search, and customer-facing features using JavaScript, jQuery, and Bootstrap.
- Integrated front-end applications with backend services and worked with developers, designers, and QA teams to implement requirements and resolve UI and integration issues.
- Fixed cross-browser compatibility issues and supported application testing, maintenance, and enhancements.

EDUCATION

- Master of Science in Data Science and Analytics (Pursuing), IGNOU — Expected 2027
- Bachelor of Science in Computer Science, Bengaluru University — 2012

CERTIFICATES

- Certified Professional Data Analyst in 2020 from System Domain
- Certified Python in 2020 from LearnprogramminAcademy
